September 14, 2007

The Hon. Antonio Villaraigosa
Mayor, City of Los Angeles
200 North Spring St., Room 303
Los Angeles, CA 90012-3239

Dear Mayor Villaraigosa:

Lezone Pacific Group, Inc. is a telephony carrier that provides prepaid toll-free and calling card service. We have equipment and offices located on both coasts. Our Southern California office is located in Placentia with our switching equipment located at 7th and Grand in Downtown Los Angeles.

My staff and I would utilize Metrolink and the Subway between Placentia and Downtown Los Angeles if there were more frequent and late night service available 7 days a week. Increasing Metrolink service to run at least every 30 minutes between Fullerton and Downtown Los Angeles would give me and my staff a practical and reliable alternative to driving and paying to park in Downtown Los Angeles. I also see this as being a great benefit to the community as well as relieving the constant traffic gridlock on I-5, which is years away from being improved.

I ask that you discuss increasing Metrolink service along this corridor and in Los Angeles County to your colleagues at the Metro Board. I further ask that you request Metrolink, by way of a Metro Board directive, to study the capital needs and operating costs that would be incurred to Metro to make increased Metrolink service a reality.

Sincerely,

Robert Leabow, President
Lezone Pacific Group, Inc.
